

Mini race car

You will need: paint, scissors, a straw, cardboard tube, cardboard, blue tack, pen and pencil.

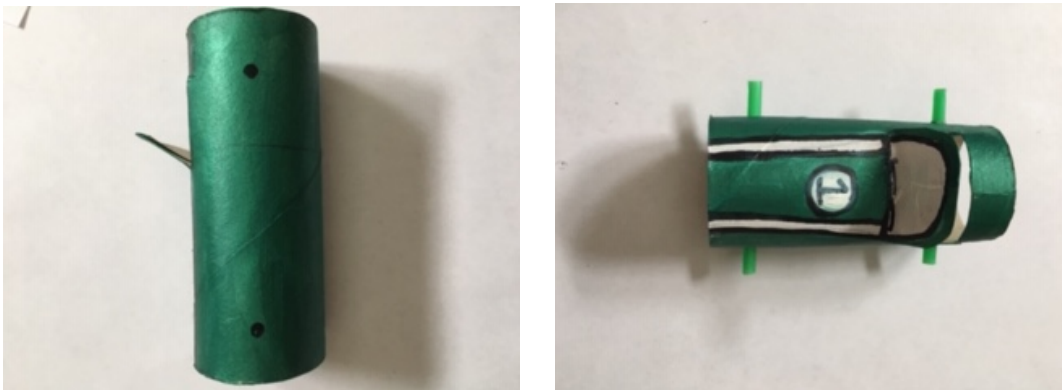

Start by drawing 3 lines as shown near the bottom of the cardboard tube, then cut the lines and fold over this is to make the windscreen. Next draw on some details a windscreen, stripes and a race number.

Paint your car in your favourite colours and leave to dry, once your car is dry use a felt tip pen to add extra details then set to one side.

Cut out 4 cardboard circles then push a hole through the centre using a pencil then paint black and set to one side to dry.

Turn your car on the side and push a hole through at either side turn over and repeat. Cut 2 pieces of straw long enough to fit through from one side of the car to the other leaving enough straw to add the wheels.

Next push on each wheel on to the straws and secure with a blob of blue tack. Then your racing car is complete.
