

Rainbow spinner

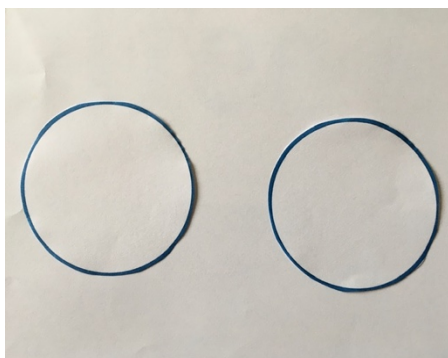

You will need:

60cm piece of string

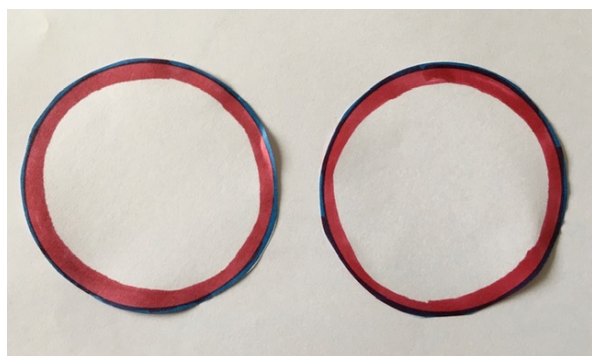

Paper

Card

Colouring pencils / pens

Start by cutting out 2 circles out of paper, you can draw around a CD, mug or use the template at the bottom of the page.

Next you need to start colouring your rainbow inside your circle cut outs.

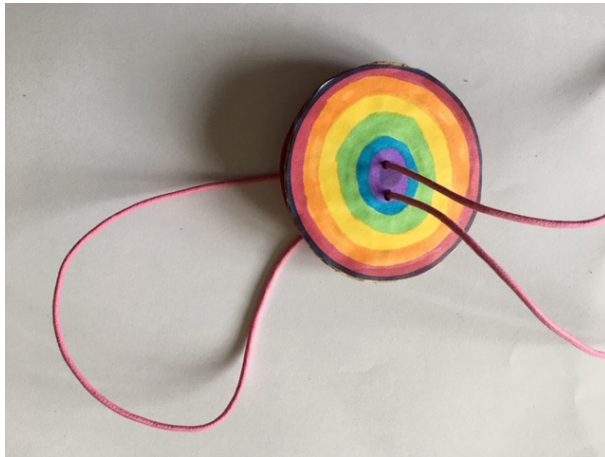

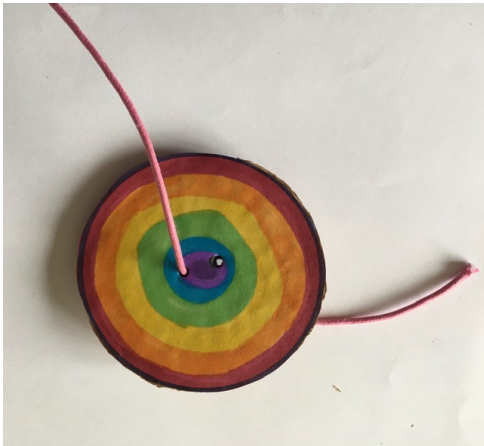

Now glue one of the circles to a piece of card and cut out.

Glue your second circle to the back to both side of your cardboard has a rainbow circle glued to it.

Now you need to make two small holes either side of the centre of your circle by pushing the end of a pencil through. The holes only need to be big enough to push your string through.

Push your string through one hole and then back through the other and tie both ends together.

To make your rainbow spinner spin you need to place the cardboard disk in the middle of the string, then hold each end of the string and spin around to wind up, then pull tight to see your rainbow spinner.
