

Treasure chest.

You will need: Glue, scissors, printed out template, colouring pens or pencils.

Print out template and colour in your own design, I have chosen to make my chest look like wood, but you can choose any theme you like.

Cut out template and fold into shape, glue the tabs into place to make your chest.

Cut out the small strip and put a little glue on either end, place the strip near the top of the box so the you slide the tap in and out to keep your chest closed.
