

## WINTER SNOW GLOBE:

You will need:

Empty and clean jam jar, baby oil, coloured glitter, glitter shapes and sequins, pine needles/other natural objects

1/ Sprinkle a variety of glitter, sequin shapes and any natural objects - I chose pine needles as I felt they went with the season - into the jar. Not too many, you can always add more later if you need it.

2/ Add baby oil up to the top of the jar - try not to leave any gap at the top as it works better without an air pocket. The baby oil suspends the glitter well.

3/ Seal the lid on the jar - you may want to Sellotape it shut or even glue it just to make sure it's not going to open.

4/ Shake the jar well and enjoy watching your own glitter snowstorm!

5/ You can even add a drop of food colouring if you have some.
