

STICK PEOPLE:

To make your stick person you will need:

- scraps of fabric/ribbon/wool
- fallen sticks off a tree (completely dried out)
- glue/scissors/double-sided sticky tape
- felt-tip pens
- googly eyes (if you have them)

INSTRUCTIONS:

1/Collect the sticks from woodland/forest area - this is probably the best part of the craft as you can enjoy those lovely autumn colours before they fade.

2/ Once collected, you must completely dry out the sticks before you start to craft your stick person/people

3/ To make the hair I cut lengths of wool - the same length - and laid them down side by side. Then, using another piece of wool, I tied it round the middle of the lengths of wool - this creates a kind of 'parting' in the hair

4/ Using the glue, stick the hair onto the top of the stick - once the glue is properly dry you can cut it as you wish

5/ For the stick person's clothes, cut out pieces of fabric and stick them on - be as creative as you wish!

6/ For the face I used googly eyes I found in my crafting box, but you could simply draw the face on with felt-tips. You can use glue to fix on the googly eyes, or even cut out two tiny pieces of double-sided sticky tape to stick onto the stick and then attach the eyes onto these.

7/Finally, I scratched out a mouth on the stick, then added a bit of red felt-tip to rouge out the lips. Again, you could just draw the mouth - it's completely up to you

8/ Now, take your stick people/person out for a walk to enjoy those lovely autumn colours.....
