

## Bee plant pot buddy

You will need: coloured paper/card, colouring pens or pencils, wobbly eyes, pipe cleaner, a stick, scissors, glue and Sellotape.

Cut out shapes from template, then colour in your bees stripes and add a smiley face.

Add some wobbly eyes or draw your own, next glue your bees head to the body.

Take a small pipe cleaner and fold in to a V shape, then bend the ends over to make the antennae.

Turn your bee over and glue on your antennae in place to the back of the bee, now glue on your wings. To finish turn over and Sellotape your stick to the back of your bee.

Finally pop your bee buddy in your favourite plant pot.
