

## Bumblebee pebble pet.

You will need: a pebble, wobbly eyes, pva glue, yellow, white and black paint.

Wash your pebble to remove any dirt, draw even lines across the pebble. Paint in between the lines with yellow paint leaving a gap between each painted section leave to dry.

Give the yellow stripes a second coat, use black paint to paint in between leave to dry. Paint on the outline of the bee's wings.

Use white paint to fill in the wings and draw on a mouth leave to dry completely and then very lightly coat in pva glue. Once your bee is dry glue on your wobbly eyes and your pebble pet is ready to hide in the garden.
