

## BUTTERFLY DOILY CRAFT

### You will need:

- paper doilies
- wooden pegs
- paint (various colours - your choice)
- glue stick
- pipe cleaners
- sparkly shapes/gems
- paint brush

### How to make your Butterfly Doilies:

1. Take two paper doilies and paint them, splodging on colour wherever you wish. It doesn't have to be neat - just make it as colourful as possible. Leave to dry completely.

2. Next paint a peg - a nice bright colour. Let the paint dry, then decorate it by gluing the sparkly shapes/gems onto it.

3. Once the paint on the doilies is dry, fold each one in half, then in half again - make the second fold so that more of the edge of the doily can be seen.

4. Take a pipe-cleaner and fold it in half, and then curl round each end of it to create the butterfly's antennae. Squeeze open the peg and place the antennae firmly between the peg's teeth.

5. Finally glue the two doily 'wings' to the underside of the wooden peg - your beautiful doily butterfly is now ready!

6. Display your butterfly by hanging it up with string to flutter lightly in the breeze, or perhaps use it as part of a garden-themed collage.

**Why not make some more butterflies for your garden?**
