

Butterfly and dragon fly peg clips.

You will need: paper or thin card, glue, scissors, peg, coloured cellophane or paper and template.

Print out template on to thin card or coloured paper. Cut out your favourite then with the help of an adult cut out the middle of the wings.

Next cut out bits of cellophane or coloured paper and glue to the back of your chosen design.

Now glue along the centre of your dragon fly or butterfly and place a peg on top then leave to dry.

Once dry your clip is ready to use for lots of different things, you can clip papers together or clip to your curtains to let the light shine through and on a nice sunny day why not decorate your garden.
