

VE Day colour and collage flag

You will need:

Flag template

Colouring pencils/pens

Tape

A garden cane or stick (optional)

Glue, glitter, tissue paper (optional)

Print and cut out your template making sure you leave the white strip at the side of the flag.

Colour your flag and add glitter and tissue paper if you wish. You can use any craft supplies you have to decorate your flag and be as creative as you like.

To attach your garden cane to your flag tape the side strip paper to your cane then secure it to the back with a few strips of tape. If you don't have a garden cane you can always hang in your window. Now you are all ready for VE day celebrations.
