

VE day medals

You will need:

Template

Cardboard

Odd bits of ribbon

Craft supplies you may have such as glitter, pipe cleaners, colouring pencils.

Scissors and glue

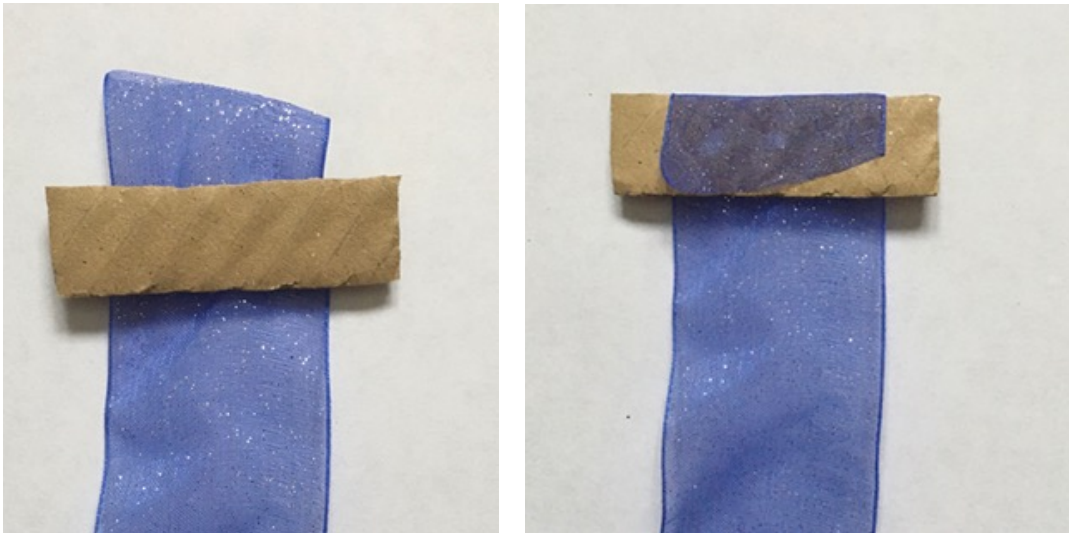

Cut out your medals from the template and then glue down to a piece of card.

Cut out your medals that are backed with cardboard.

You now need to decorate your medals. You can use any craft supplies you have, or you can just colour them in your favourite colours.

Cut a rectangle piece of cardboard a little bit wider than your ribbon then glue down the edge on the back.

Now you need to glue your ribbon to the back of your medal making sure that the medal is facing the right way first and not upside down, turn around to see your beautiful medals.
